### EXPLANATION OF ACT ICONS FOR UPHOLSTERY

- **Fire Retardancy**
  Flammability testing determined as fabric's resistance to burning.

- **Colorfastness to Light**
  Colorfastness to light is the degree to which fabric will retain its color when exposed to light.

- **Abrasion**
  Abrasion is the ability of a fabric to withstand damage from wear and rubbing. There is a general contract specification as well as heavy duty specification.

- **Colorfastness to Wet and Dry Crocking**
  Colorfastness to wet & dry crocking refers to the rubbing off of color from the fabric onto clothing, hands or other materials and can occur under wet or dry conditions.

- **Physical Properties**
  3 physical property tests include: brush pill test to determine a fabric's pilling. Breaking/tensile strength is the ability of a fabric to withstand tension without breaking or tearing. Seam slippage is the pulling apart of fabrics at the seams.
