

CHIROFORM™

ALLSEATING

HAS YOUR BACK.

WHAT

- + Chiroform Ultra is a heavy duty upholstered task chair that specializes in durability, longevity, and comfort.
- + It was engineered to stand up to the demands of non-stop usage in even the heaviest work environments.

WHY

- + Although the world of office seating continues to grow and evolve, the need for heavy duty task chairs that can endure the rigors of long-term usage will always be a staple in many working environments, such as 24/7 shift work in areas like nursing stations or security offices.
- + Large-occupancy seating has continued to be a prevalent trend in the 21st century.
- + When engineering durable seating that lasts, sometimes aesthetic and comfort gets overlooked. Chiroform Ultra gets the job done with minimal-to-no detriment on its design style and comfort.

HOW

- + Synchro Tilt mechanism allow for users to recline comfortably with their feet remaining on the ground while optional seat depth intuitively encourages users to choose the most ergonomic seating position for their body type. The Deluxe Tilt J-Bar mechanism offers even greater control, with adjustable back angle, seat angle, and back height adjustment included.
- + Multiple arm options available to suit a variety of ergonomic needs. Arm options include height-adjustable T2 arms, as well as arms with specialized armcap movements such as the 4D and MF arms. The fully adjustable T7 arm with a patented 360 rotational arm cap is also available. Optional width adjustment available to be specified with any arm.

- + Optional Bumper Trim and Ballistic Nylon Back options ensure optimal resistance to damage on both the chair and office peripherals in high-traffic areas.

- + Certain options warranted for 24/7 use [see price book or website for details] and carry Allseating's unmatched 12 year all-inclusive warranty. Specialized Chiroform Ultra 24:7 model includes heavy duty cylinder, mechanism, and base for even more durability in these demanding environments.

- + Chiroform Big model designed for large-occupancy and is rated for users up to 500lbs and carries a 23.5" seat width.
- + 8" and 10" Stool models available for countertop stations and sit-to-stand desk stations.
- + Can be upholstered in thousands of textile options, including the majority of Allseating's carded textile program.

DESIGNER

- + Since 1982, Allseating has developed a reputation for quickly adjusting to the changing needs of customers in the office, educational and healthcare sectors. Today, Allseating has evolved to have product designs for more environments than ever, truly demonstrating the concept of anywhere in all that we do. Inspired by our founder and CEO, Gary Neil, the Allseating team has become known for delivering excellent customer service at every touchpoint.
