

DOVE™

ALLSEATING

CLEAN AND SIMPLE.

WHAT

- + Dove is Allseating's solution for controlled environments with an emphasis on cleanability and sterility.
- + Available as a lab chair or a scooter stool, Dove is the perfect mobile seating option for lab and pharmaceutical spaces.

WHY

- + Healthcare professionals require seating that adheres to the clinical standards of cleanliness while allowing them the mobility and freedom to excel in their day-to-day work.
- + Versatility is also a key factor in healthcare seating, as healthcare institutions need options that can work in multiple areas such as private doctor's offices, nurse stations, as well as open hospital areas.

HOW

- + Dove is available as a Lab Chair or Scooter Stool, both lightweight options with small footprints that offer incredible mobility.
- + Both versions of Dove are available as 8" and 10" stools, ensuring the needs of stations at various heights throughout a facility are met.
- + Dove combines durable polypropylene and a self-skinned polyurethane microcellular foam that is resistant to chemicals, grease, oil, and bodily fluids. This is a chair that has proven resilience in the toughest conditions.

DESIGNER

- + Since 1982, Allseating has developed a reputation for quickly adjusting to the changing needs of customers in the office, educational and healthcare sectors. Today, Allseating has evolved to have product designs for more environments than ever, truly demonstrating the concept of anywhere in all that we do. Inspired by our founder and CEO, Gary Neil, the Allseating team has become known for delivering excellent customer service at every touchpoint.
