

R.E.S.[®]

SURFACE

A lower shelf to free up the work-surface of small items such as phones, stationary, chargers, drinks, etc., makes active learning easier by decluttering the environment.

MOBILITY

Higher institutions are opting to hold classes in multipurpose rooms that can easily be converted to meet the needs of the students—thus, calling for more mobile and adaptable solutions.

FEATURED

Midback with Smoke Base , Shelf and Tablet in Clay Laminate, Coat Hook and Black Accent Finishes.
Upholstery:
C.F. Stinson's Flanders in Polynesia.

STORAGE

Front access storage in the base for personal belongings that features a slight incline for drainage in case of spills and dirt.

COMFORT

Soft upholstered seat and backrest for optimized comfort and support. Stool option available allowing for a more engaged seating option.

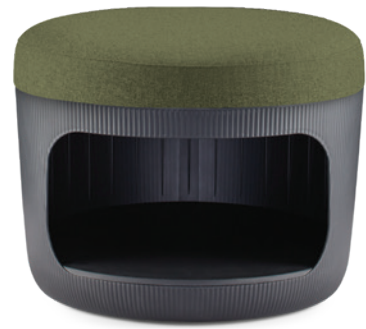

FEATURED

Midback and Stool with Smoke Base and Coat Hook, Shelf and Tablet in White Laminate with White Accent Finishes.
Upholstery:
C.F. Stinson's Flanders in Polynesia, Lifesaver and Sugar Beet.

VERSATILITY

R.E.S. inspires increased productivity and collaborative thinking in several settings as its adaptable functionality allows for both conventional and modern options. It is a seamless fit into a variety of space types, like lounges, common areas, libraries, learning spaces and in-between spaces.

RESEARCH, EDUCATION, SOLUTION

The product of intense design development and expert research, R.E.S. is a seating solution that supports active learning through a thoughtful, modern aesthetic and variety of adaptable features. It is a unique hybrid of designs—combining elements of comfortable lounge seating with that of focused task seating. Institutions are increasingly veering toward a learning experience that is based on the principles of active learning. Applying knowledge and problem solving in small group settings are becoming more widespread, as opposed to acquiring knowledge through traditional, lecture-based formats. More flexible and nimble seating options are required to augment the experience of active learning, and R.E.S. offers a mix between individual work styles and collaborative dialogue.
