

# RAINBOW™

ALLSEATING

## A SPECTRUM OF OPTIONS.

### WHAT

- + Rainbow is a bright solution for institutional, healthcare, and corporate environments alike and has a versatile offering of models to accommodate these varying spaces.
- + Rainbow excels as an entry-level priced guest chair and carries a high value market statement.

### WHY

- + No matter the industry, waiting areas are a constant. Comfortable, durable, and aesthetically pleasing seating solutions are required for these areas.
- + Facilities should have guest seating options that do not break the bank or deter from the functionality of the space.
- + Facilities also need seating options that accommodate all body types, from petite seating to large-occupancy seating, and this is especially prevalent in healthcare areas.
- + With collaboration and openness being a priority, walls are now made of glass and workplaces are seeing more lounge inspired breakout spaces.

### HOW

- + Rainbow features four (4) sizes: guest, wide, plus, and hip.
- + Using a double-curved back and a wall saving 14-gauge steel frame, Rainbow offers healthcare grade durability without sacrificing comfort or style.
- + Rainbow is space-efficient and easy to store, stacking 4 on the floor, and 7 or 14 on a dolly. Rainbow also has optional ganging brackets for tandem seating.

- + An optional Phlebotomy Arm for blood-drawing stations is available on the Wide and Plus models. The Phlebotomy Arm can be specified on the left side, right side, or even dual-sided.

### DESIGNER

- + Since 1982, Allseating has developed a reputation for quickly adjusting to the changing needs of customers in the office, educational and healthcare sectors. Today, Allseating has evolved to have product designs for more environments than ever, truly demonstrating the concept of anywhere in all that we do. Inspired by our founder and CEO, Gary Neil, the Allseating team has become known for delivering excellent customer service at every touchpoint.
