

ALLSEATING ACCEPTS HEALTHIER HOSPITALS SAFER CHEMICALS CHALLENGE 2.3

Healthier Hospitals makes it easier for hospitals to select furniture and materials that meet the Healthy Interiors goal of the Safer Chemicals Challenge.

Healthier Hospitals works with furniture and textile manufacturers to identify products that meet the Healthy Interiors goal. The Healthier Hospitals Safer Chemicals Challenge (Version 2.3) requires participating hospitals to ensure that 30 percent of the annual volume of furnishings and furniture purchases (based on cost) eliminate the use of formaldehyde, perfluorinated compounds, polyvinyl chloride (PVC), antimicrobials, and all flame retardants.

Our sole focus at Allseating is to design solutions that make being in the seated position more ergonomic and productive. Our ability to mass customize effective and accessible design solutions has earned us the reputation for quickly adapting to the changing needs of our customers in the healthcare sector.

Furniture described meets the Healthier Hospitals Safer Chemicals Challenge 2.3. Healthier Hospitals does not verify manufacturer information.

For Every Situation

For more than 30 years, Allseating has been a leader in the design and development of solutions that adjust to the needs of customers in the office, educational, hospitality and healthcare industries. Our 100,000 square foot facility in Toronto, Ontario, Canada is home to our broad line of seating solutions. Whether it's through innovative designs or comprehensive service programs, we're always working at making people feel comfortable and productive.
