

THERAPOD®

Backed by health professionals.

People, bodies and backs come in all different shapes and sizes. Therapod has been designed to offer fully adjustable back support that can be tailored to your unique needs.

Therapod is available in a highback or extra highback design. Its patented design accommodates every region of your back thanks to body-specific strap adjustments.

Its counterpart, Therapod Therapist, features the added support of our deluxe synchro tilt mechanism. It's no wonder why physiotherapists and chiropractors recommend it so highly.

- 1 Body-Specific Strap Adjustment
- 2 Therapod Highback
- 3 Therapod Therapist Extra Highback
