

MULTI-FAMILY
Supports multiple moves.

The Multi-family is a series of chairs featuring a Flexion™ seat that passively flexes with downward and forward movement to minimize stress points under the legs. Breathability is addressed too, thanks to its 2-piece back design.

The Multi-family includes Multistack® and Multiflex®, both featuring a polypropylene seat and back. A 12-gauge elliptical tubular steel frame offers added durability and chairs stack 12-high on a dolly. Optional accessories include an upholstered seat pad, book basket and ganging bracket.

Multiflex® provides the added support of a torsion-bar back construction that pivots backward and forward, providing continuous support as you recline. This makes Multiflex highly comfortable over multiple hours.

- 1 Dolly (Multistack)
- 2 Ganging Bracket (Multistack)
- 3 Torsion-Bar Back Construction (Multiflex)
- 4 Writing Tablet and Book Basket (Multiflex)
