

HALSA[®]

Minimalist design. Maximized comfort.

Inspired by Scandinavian design principles, the Halsa line of seating and tables gives health and education organizations a new offering to make their spaces as comfortable and inviting as possible.

Halsa, which is Swedish for “health”, includes chairs in five styles—Single, Plus, Loveseat, Double and Triple. While all are available in midback, the single is also available in highback, most often referred to as a patient chair. Tables come in five different configurations: 2 stand-alone and 3 tandem options for expanded design options.

The linear design approach makes it ideal for organizations where balancing space and comfort are key. All seating features a high level of durability and built-in lumbar support.

For varying budgets and applications, the styles come fully upholstered as standard, with optional removable covers. Table surfaces are available in eight Thermofoil finish options. Arms are available in thirteen finishes—three polyurethane, six solid wood options and four corian.

Halsa has been designed to complement the Foster Collection, allowing designers to mix and match the two lines to create a dynamic look across the entire continuum of care.

- 1 Single Highback/Patient
- 2 Multiple Double
- 3 Double with Full Arm
- 4 Coffee Table
- 5 In-Line Table
